

## Statement of Authorship and Intellectual Ownership for Unified Theistic Naturalism

*Unified Theistic Naturalism (UTN)* is an original philosophical and spiritual framework conceived and authored by **Patrick Carodine**. This statement applies to **all UTN-related works**—including white papers, books, research writings, digital uploads, public posts, and all future publications—establishing unified authorship across the entire body of content.

UTN is not derived from, modeled after, or intended as a continuation of any previous philosophical, religious, or scientific framework. While it may engage concepts that parallel themes in broader discourse—such as divine immanence, natural law, and human awareness—its structure, language, insights, and methodology are wholly original. They arise from the author’s direct observation, spiritual inquiry, and communion with the Divine.

Any similarities between UTN and preexisting works are either coincidental or the result of convergent exploration of shared universal truths. The system, concepts, and practical expressions of UTN are the sole intellectual property of the author.

By this statement, Patrick Carodine affirms full authorship, originality, and ownership of all present, past, and forthcoming UTN works, including all books and published materials bearing the UTN name.
